

40% of foster youth graduate high school, and only 3% graduate college.

More than half of foster youth report \$0 in wages in the first 4 years after leaving the system.

Those employed earn only \$700 a month, on average, by age 24.

Mission

The Los Angeles Opportunity Youth Collaborative (OYC) leverages collective cross-sector and community-based leadership and investments of the Los Angeles region to improve pathways to education and employment for transition-age foster youth (TAY), ages 16 - 24.

By **coordinating services, leveraging community resources, aligning strategies and improving policies**, L.A. Opportunity Youth partners break down siloed systems and establish sustainable reforms to improve three outcomes for transition-age foster youth in L.A. County:

- 1. High school graduation and GED attainment**
- 2. Postsecondary enrollment and credential completion**
- 3. Workforce readiness and gainful employment**

Framework

Based on the Collective Impact model, OYC will improve outcomes for TAY by:

- 1. Collaborating for Impact**
Collective ownership of a common agenda among cross-agency leaders; businesses; funders; and, youth who have not historically worked together.
- 2. Building Effective Pathways**
Building a continuum of care for TAY that overcomes system barriers, and creates bridges to high school completion, higher education, and gainful employment.
- 3. Using Data to Guide Decisions and Assess Impact**
Collection, analysis, and reporting of common metrics, TAY access to services, and outcomes.
- 4. Leveraging Funding to Support and Sustain Innovation**
Leverage existing resources to secure new public and private investments for TAY.
- 5. Creating Policy and Systems Alignment**
Developing a shared agenda for local, state, and federal policy advocacy and systems reform.

OYC Partners, including: Government Agencies, Advocacy and Community-Based Organizations, Workforce Centers, School Districts, Higher Education, Philanthropists, and Advisors
